Professional Summary

Full Stack JavaScript Developer with 4+ years of experience building scalable web applications using Node.js, React.js, Next.js, Vue.js, TypeScript, MySQL and MongoDB. Experienced in REST API development, authentication systems, payment integrations, real-time applications, and cloud deployment.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Vue.js, Tailwind CSS, Bootstrap, Shadcn UI

Backend: Node.js, Express.js, REST APIs, WebSockets

Databases: MongoDB, MySQL, PostgreSQL, Redis, Firebase

Cloud & Tools: AWS, Docker, CI/CD, Git, GitHub, Puppeteer, SendGrid, Stripe API

Experience

Full Stack Developer GKP Web Solutions

Dec 2021 – Present

- Designed and developed a dynamic email template management system using Vue.js, Node.js, and SendGrid API with live preview, Handlebars-based personalization, and drag-and-drop editing.
- Built real-time bidding management functionality using Vue.js, WebSockets, MySQL, and Redis, enabling instant synchronization of bid updates across connected users.
- Integrated KYC and identity verification workflows using Stripe Identity and ComplyCube APIs within a multi-step onboarding system to enhance security and compliance.
- Developed a refund management dashboard using Vue.js, Node.js, and Stripe APIs, enabling administrators to process, monitor, and audit refund transactions through secure role-based access controls.
- Implemented secure payment tokenization workflows using Stripe and Trust Payments APIs, ensuring PCI-DSS compliance by replacing sensitive payment card data with secure tokens.
- Implemented multilingual support using Vue.js and Google Translate API, enabling dynamic translation of platform content into 8+ languages to improve accessibility for global users.
- Developed scalable web scraping and data automation scripts using Node.js and Puppeteer to extract, process, and export structured datasets into CSV format.

Projects

AI Text-to-Image Generator — MERN Stack, Razorpay, JWT Auth

- Built a full-stack AI image generation platform using MongoDB, Express.js, React.js, and Node.js with JWT authentication and credit-based workflows.
- Integrated AI image generation APIs and Razorpay payment gateway with subscription plans, payment verification, and dynamic credit management.
- Developed responsive and animated React interfaces using Tailwind CSS and Framer Motion with image generation, download, and loading state functionality.

Notes App — Next.js, Node.js, MongoDB, Better Auth, Shadcn UI

- Built a production-ready full-stack notes application with authentication, rich text editing, password reset, and email verification workflows.
- Implemented secure JWT and OAuth authentication with optimized server-side rendering and responsive UI design.
- Integrated Tiptap rich text editor and deployed the application on Vercel with custom domain configuration.

Education

Master of Computer Applications (MCA)

2025 – Present

Integral University, Lucknow

Bachelor of Arts (B.A.)

2018 – 2021

DDU Gorakhpur University
