SUMMARY

Highly motivated Final year B.Tech (CSE) student specializing in Full-Stack Web Development. Proficient in building scalable web applications using JavaScript, Node.js, and Python ecosystems. Hands-on experience developing secure user authentication systems, real-time interactive interfaces, and managing relational/non-relational databases. Strong collaborator in university hackathons with a passion for clean code and modern frontend/backend frameworks.

SKILLS & TECHNOLOGIES

- **Web Development Frameworks:** Node.js, Express.js, React, Flask, Bootstrap, Tailwind CSS
- **Languages:** JavaScript, HTML5, CSS3, Python, Java, C/C++, SQL
- **Databases & DevOps:** MongoDB, SQLite, MySQL, Git, GitHub, RESTful APIs, Postman
- **Core CS Concepts:** Object-Oriented Programming (OOPS), DBMS, Operating Systems (OS), Software Engineering, Computer Networks

PROJECTS

Book Management Store

React, Express.js, Node.js, MongoDB

- Built a full-stack Bookstore Management System enabling users to dynamically browse catalogs and track real-time pricing and stock details.
- Designed and integrated a secure administrative panel to streamline collection management and inventory updates.

Spice Delight (Restaurant Management Application)

HTML5, Tailwind CSS3, JavaScript

- Designed a responsive restaurant application utilizing semantic HTML5 and modern CSS techniques for optimized across-device layouts.
- Engineered a client-side state-driven item cart system and interactive user interfaces using native JavaScript DOM manipulation.

INDEPENDENT WEB DEVELOPMENT & CONTRIBUTIONS

Open-Source Campus Web Projects

KCCITM

Full-Stack Developer & Peer Contributor

Aug 2024 – Present

- Collaborated with peer developers to architecture, debug, and optimize student-led web applications on GitHub.
- Authored clean, reusable UI components and streamlined REST API endpoint integrations for internal project testing tools.
- Conducted regular code reviews within student coding groups, promoting best practices in Version Control (Git/GitHub) and clean file structures.

EDUCATION

KCCITM, Greater Noida

Greater Noida, India

B.Tech in Computer Science and Engineering

Sept 2023 – Sept 2027

- Relevant Coursework: Engineering Foundations, Database Management Systems, Computer Networks, Data Science.

ACHIEVEMENTS & CERTIFICATIONS

- **Hackathons:** Competitive participant in regional university hackathons, actively contributing as a frontend/backend developer.
- **Certifications:** Claude Code in Action by **Anthropic** (Mar 2026)
